

Scotfield Christian School PHILOSOPHY STATEMENT

Scotfield Christian School exists to provide an alternative to public school education to children of parents sympathetic to Christian education. Fundamental to our definition of Christian education, is our belief in the inspiration and inerrancy of the Bible. As God's Word, we believe it to be true and trustworthy; therefore, we believe that it deserves a place in education in the classroom regardless of the subject matter taught. It is also an infallible guide to righteous, ethical, and moral judgments.

Based upon the fact that human beings bear the image of God, we are dedicated to the proposition that every student is worthy of individual time, effort, and prayer to the end that each one becomes a mature Christian and responsible citizen. Each student is encouraged to respond to God's invitation to receive personal salvation by faith in Jesus Christ and is encouraged to develop biblical convictions with respect to every aspect of life.

We believe that it is desirable that the student body should contain a cross section of society racially, socially, and economically and that it be limited in size so that a sense of community can be established and maintained. We further believe that the school should be of special service to the children of parents who share our concern for each person's relationship to God.

We believe that our curriculum should be governed largely by the word "excellence". Consequently, we have chosen to be accredited with the Association of Christian Schools International and comply with its standards with regard to curriculum, student assessment, and promotion. We welcome its objective evaluation of our staff and academic program in order to ensure the excellence of our Christian instructional environment.
